

HOW WILL YOU USE YOUR NEWFOUND FREE TIME?

STREAMLINE AND ENHANCE YOUR PATIENT CONSULTATION PROCESS WITH EYEMAGINATIONS OFFICE™ – ENT.

Eyemaginations Office – ENT is an innovative, easy to use software application that frees up your time and energy currently spent educating patients on the nuts and bolts of diagnosis, treatment and procedure.

Driven by breathtaking 3-D animated visuals and an intuitive interface, Eyemaginations Office – ENT walks the patient — and his or her caregiver — through the treatment process, using detailed anatomical illustrations and plain-English descriptions of the how and why.

Designed to fit seamlessly into your practice's existing workflow and requiring little to no training, Eyemaginations Office – ENT takes on the burden of patient education. This results in more time for you and your staff to focus on treating the next patient, handling office operations, or just simply getting out of the office faster every day.

✓ EFFICIENCY & PRODUCTIVITY

By taking time-consuming and repetitive procedure education out of the doctor's hands, Eyemaginations Office – ENT frees up your practice's human resources to focus their energy in other areas.

✓ PATIENT & STAFF EDUCATION

Through use of vivid 3-D animations and easy-to-understand language, Eyemaginations Office – ENT educates patients effectively without scaring them. And your staff will better understand and appreciate the processes involved in procedures and treatment.

✓ VERSATILITY

Eyemaginations Office – ENT works where and when you need it – whether that's in the waiting room, the exam room, or in a dedicated space — it is designed to fit seamlessly into your practice's existing workflow and requires little to no training.

✓ TRUST & ACCURACY

All information is thoroughly vetted and peer-reviewed to represent the very latest in medical expertise. With patient skepticism on the rise, Eyemaginations Office – ENT helps alleviate the mistrust. Your patients will leave the office confident in their diagnosis and armed with the knowledge they need to ensure a successful course of treatment.

✓ SATISFACTION

Eyemaginations Office – ENT was designed with patient satisfaction in mind. Offering patients a more impressive, comfortable experience differentiates you from the competition, which means more word-of-mouth referrals and an overall stronger perception of your practice.

EAR, NOSE, & THROAT

With Eyemaginations Office – ENT the benefits don't end at purchase. We take pride in the idea that you're never alone – industry leading support and service come bundled with every piece of software we sell.

We can help with all aspects of setup in your office, including turn-key solutions, custom hardware consultation and support if needed. We'll make sure to resolve any questions you have before launch, ensuring a seamless experience at every turn.

Once Eyemaginations Office – ENT is up and running, technical support is just a phone call away. And our subscription-based model means that you get access to updates and enhancements as soon as we release them – there's no need to devote time or resources to keeping the system up to date.

READY TO STREAMLINE YOUR PATIENT CONSULTATION PROCESS?

You can also visit us on the web at www.eyemaginations.com to learn more and get in touch. We're looking forward to hearing from you.

✔ WHAT DOCTORS ARE SAYING ABOUT US

"In an age when we have less time to spend with our patients, I have found the menu driven software an incredible asset on multiple fronts. First, it frees up my time and allows me to see more patients. Second, it gives the patient the illusion that I am spending more time with them. Third, it gives them a high tech image of the practice and an air of authority. Fourth, it gives the patient a much clearer understanding of their disorder - a picture is worth a thousand words, an animated video is worth more. Fifth, it allows the technicians to educate the patients before I see them and answer many of their questions." • Dr. Barry S. Seibel

"Overall, my experience has been phenomenal! The program clearly lives up to its billing. I have had great patient response to my new chair-side education program and the reception area loop presentation has produced lots of interest...thanks so much for everything you've done for me and my practice." • Dr. Grady Clark
